Board policy provides that practice involves both clinical and technical aspects of the specialty and the Regulator's policy regarding the practice of the specialty is as follows: "The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty."

The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.

- The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
- The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
- The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
- The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
- The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.

RATIONALE

The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.

PROCEDURE

The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.

Rules for Calculating Practice Hours

1. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
2. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
3. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.
4. The Board's policy regarding the practice of the specialty is that the practice must involve both clinical and technical aspects of the specialty.

5. Hours worked in one MIRTTP specialty cannot be counted toward another MIRTTP designation (e.g., hours counted toward MRI practice hours cannot be counted toward radiological technology practice hours);
6. Practice hours are calculated based on the NSCMIRTTP licensure year (between Jan. 1 and Dec. 31).

How to Change My Reported Practice Hours

- If there is a miscalculation of your hours for the previous licensure years, you can contact the NSCMIRTP office at info@nscmirtp.ca with the corrected hours.

How to Re-Establish Currency of Practice

- If you do not meet one of the currency of practice options listed above, you must re-establish your currency of practice to become licensed in Nova Scotia. There are two ways this can be accomplished:
 - Successfully complete a MIRTTP re-entry program
 - If an individual can demonstrate proof of inability to obtain access to required practice hours, you can apply to the Credentials Committee for an exception and determination of an alternative method to prove currency. Please see Policy C-19, Alternative Assessment of Currency Hours
