

Dear Lyndsay,

On behalf of the Alliance of Medical Radiation and Imaging Technologists Regulators of Canada (AMRITRC), I am pleased to extend our sincere congratulations to the Alberta College of Medical Diagnostic and Therapeutic Technologists (ACMDTT) on becoming the regulator for Diagnostic Medical Sonographers in Alberta, effective July 6, 2026.

This is a significant milestone for the profession, for the people of Alberta, and for health profession regulation across Canada. Expanding professional regulation to include Diagnostic Medical Sonographers reflects a strong commitment to public protection, accountability, and excellence in regulatory practice.

The members of AMRITRC value the collaboration and knowledge-sharing that exist among regulators and partners across the country. We look forward to continuing to work alongside ACMDTT as we advance our shared commitment to protecting the public interest, promoting regulatory excellence, and supporting consistent, effective regulation of the medical radiation and imaging technology professions across Canada.

Please extend our congratulations to your Council and staff, and everyone whose dedication and perseverance contributed to achieving this important milestone.

We wish ACMDTT every success as you begin this exciting new chapter and look forward to our continued collaboration in the years ahead.

Yours sincerely,

Pree Tyagi

Chair
Alliance of Medical Radiation and Imaging Technology Regulators of Canada (AMRITRC)
